ABOUT GOOD NEWS!

"The People's Paper"
By: Barbara Middlebrook

When you read this newspaper our desire is that you are informed and positively impacted; by viewing a variety of goods, services, announcements, and social resources information advertised by our business subscribers.

Our goal is to promote and connect these business advertisers with the public in our communities across Tulsa and beyond. When ever you need any goods, services, or products you see advertised in our newspaper; we hope that you consider contacting those businesses and support them.

I believe that these business advertisers will provide quality goods, products and professional services as listed in their advertisements. We also, believe because you patronized their business; it will be greatly appreciated!

TO SUBSCRIBE IN OUR NEXT GOOD NEWS! NEWSPAPER.

Scientific Reasons Spring is the Most Delightful Season

Summer, winter, and fall may have their fans, but spring is clearly the most loveable of the four seasons. Here are several reasons why spring is so great. Spring temperatures are moderate. Spring marks the end of blistering winter and the transitional periods to scorching summer. In many places, the season brings mild temperatures in the 60's and 70's Fahrenheit. People tend to be most comfortable at temperatures of about 70F, so the arrival of spring mean you can finally ditch the heavy winter layers and still be comfortable. Birds return from their winter vacations; baby animals greet the world. You can spend more time outside and it is true; spring makes you more creative. Researchers found that being outdoors broadened participants minds, leaving them more open to new information and creative thoughts. During the spring season is easy to find, tasty produce. Many vegetable and some fruits are harvested in the spring. Getting more fruit and vegetables into your diet isn't just good for the body; it's good for the soul.

Highlighting Farms and Markets With Fresh Fruits & Vegetables In Oklahoma
